TITLE : INK COMPOSITION FOR INK JET
RECORDING

ABSTRACT : PURPOSE: To provide an ink jet composition giving high quality images free from the cissing and flow of the ink composition on good mold-releasable transfer media having low surface tensions irrespective of the patterns of the images.

CONSTITUTION: In the ink composition containing at least water, a coloring agent, a thermoplastic resin, a saccharide and a surfactant and used for transfer type ink jet recording methods, the surfactant contains at least a surfactant having fluorine atoms in the molecule and a surfactant not containing a fluorine atom.
